## **Introducing Clarion Food Machinery HT EP Grease, No. 1, Great for Centralized Lube Systems!**

Clarion Food Machinery HT EP Grease, No. 1, is a high-temperature, extreme-pressure, water-resistant grease designed for use in high-speed bottling, canning and packaging equipment lubricated through a centralized grease system. Its excellent pumpability, anti-wear/EP protection and resistance to bleeding help to extend equipment life.

### **Features and Benefits:**

- Excellent pumpability
- Good high-temperature properties
- Superb resistance to water wash-out
- 40lb. Timken EP
- NSF H1 Registered

### **Availability:**

Clarion Food Machinery HT EP Grease, No. 1, is available in cartridges, drums and kegs and may be used in food processing and packaging machinery where there is a possibility of incidental contact with food.
