
Terpene Cleaner

Description: Terpene, derived primarily from pine or citrus, provides a safe, mild smelling, biodegradable, natural alternative to chlorinated hydrocarbons, methylene chloride, 1,1,1 trichloroethane and traditional petroleum solvents like Varsol and kerosene. Terpene Cleaner has low toxicity and zero ozone depleting potential (ODP). This product is non-abrasive, non-caustic and non-corrosive to metal and can help replace chlorofluorocarbon (CFC) cleaners with their inherent VOC liability.

Recommended uses: In addition to being more environmentally sound, Terpene Cleaner is an extremely effective degreaser. It will dissolve greases, oils, paraffins, waxes, tar, chewing gum, crayon and plastics (ABS, styrofoam, urethane). It has penetrating ability to clean soils like buffing and lapping compounds from recessed areas. Terpene Cleaner dissolves asphalt from trucks and equipment, cleans pipe dope, drilling muds, valve lubricants and removes smoke tracks from vehicles. Test on plastic, rubber and painted surfaces before using. Terpene Cleaner is authorized by the USDA for use in federally inspected meat and poultry plants.

Color: Clear

Diluent: Water

Flash Point: 150°F (65°C)

Weight: 7.26 pounds per gallon

pH: N/A

Specific Gravity @ 70°F (21°C): 0.87

Method of Application: Use at ambient temperature. May be applied by brush, dip or low pressure spray. Generally used full strength. May be diluted with water to any dilution that is effective for the specific situation. If diluted, mix thoroughly and re-mix during use as needed. When Terpene Cleaner is employed in pressure equipment, solvent-resistant hoses and fittings should be used.

Handling: For industrial use only. Handle with caution. Keep away from heat, sparks, open flame and strong oxidants. Do not store in direct sun. Avoid prolonged or repeated breathing of vapor. Avoid long or repeated contact with skin. Wear rubber gloves and chemically tight goggles. Wash thoroughly after handling. Launder contaminated clothing before reuse. Place eyewash station in work area. Instruct employees to familiarize themselves with the Material Safety Data Sheet furnished with this product. Keep bungs tight when not in use.

Keep out of reach of children.
