

CITGO Modernizes Metalworking Product Line

CITGO's line of metalworking products is in the process of being upgraded, reformulated and expanded. The new chlorine free product line consists of 16 core products listed in the chart below. All the new product formulations are performance-enhanced, with the exception of CITCOOL® 33 Concentrate, which remains the same. Rounding out the metalworking product line are three new semi-synthetic soluble additions: CITCOOL SS GP, CITCOOL SS HD and CITCOOL SS HP.

NEW PRODUCT	REPLACES	CATEGORY	APPLICATIONS
Autokut® AS 15	Autokut NC 130, Ordnance® 1200	Straight Oil	Metal Removal
