

## The Summit Newsletter

Dear Steve,

This month's newsletter features Part 2 of Summit lubricant specialist John Romeo's discussion on barrier fluids. You can also learn more about Summit's advertising plan and provide feedback on how we can help you connect with your customers.

*Feel free to forward this to the people in your company who could benefit from it the most.*

(If images do not display correctly, try changing your email image settings, or [click here](#) to view the email as a webpage.)

### Synthetic Barrier Fluids (part 2)

Synthetic barrier fluids are the lifeblood of double mechanical seals and are used throughout the chemical, petrochemical and refinery industries. [Click here](#) to read part 2 of an informative article on Barrier Fluids by Summit salesman and Certified Lubricant Specialist John Romeo.

*([Click here](#) to go back and read part 1.)*

### Summit Magazine Advertising in 2010

Summit is committed to doing everything we can to support your efforts in selling our products. One way we can do this is by increasing brand awareness through advertising. Our [2010 advertising campaign](#) will use all types of media, focusing on publications that target the people you sell. We are always looking for the best publications to reach your customers.

Please e-mail us at [info@klsummit.com](mailto:info@klsummit.com) if you have suggestions.

### Automatic Payment by ACH or Credit Card

Many customers have found that setting up an automatic payment plan with Summit is a fast, efficient way to pay. If you are tired of having to sign checks for payment of Summit invoices, we can take away some of the hassle by setting up an electronic payment method such as an ACH debit or automatic charging of invoices to your MasterCard, Visa or American Express.

Contact Jill Wiggins at [jillw@klsummit.com](mailto:jillw@klsummit.com) for further details.

### Spots Available for March Seminar

There are still a few openings for Summit's March Training Seminar. Contact [Rose Spencer](#) or your Summit Sales Representative to reserve your seat today.

Also, [click here](#) to see the full list of Summit's upcoming Distributor Training Seminars in 2010.

### Barrier Fluids

Summit's Synthetic Barrier Fluids E & 5

Summit Barrier Fluids are NSF registered and meet USDA H-1 guidelines.

Log into the [Summit Portal](#) or contact your Summit Sales Representative to obtain a detailed [Product Data Sheet](#).
