

NORKOOL

Industrial Products

As coolants, corrosion inhibitors, and cleaners, NORKOOL and NORCHEM products set the standards in quality and performance, in unmatched technical expertise, and in industry-leading service.

With over 60 years experience in ethylene glycol, Dow has an unparalleled record of meeting customer needs. In fact, NORKOOL products are endorsed by many equipment manufacturers because of our continued dedication to solving coolant and cleaning needs in the field.

A total service package includes free sample analysis for trouble-free system performance. Our state-of-the-art automated laboratory provides the fastest, most accurate and comprehensive test program for heat transfer fluids available today. Our broad distribution network in the U.S. and Canada means product when and where you want it.

NORKOOL coolants and NORCHEM inhibitors—products that perform and save you money!

NORKOOL SLH Coolants **“The Cavity Fighters”**

Introduction

NORKOOL™ SLH coolants and NORCHEM™ inhibitors have been designed to resolve many industry-wide operational problems concerning corrosion protection and optimum heat transfer. The patented NORKOOL SLH coolant family has proved effective in mitigating liner **cavitation and crevice corrosion**.

Performance

The photos below dramatically demonstrate the effectiveness of NORKOOL SLH coolant in protecting the liner of a White Superior 8G-825 Engine.

**After 14,400 Hours
With
NORKOOL SLH Treatment**

No liner cavitation corrosion

**After 5,500 Hours
Without
NORKOOL SLH Treatment**

Cavitation and liner perforation

The NORKOOL Program

The NORKOOL program looks not only at the problem, but we also seek out the root cause. This coolant and supporting re-inhibitor treatment is extremely effective and has saved many customers thousands of dollars in unnecessary maintenance (not to mention downtime) expenses.
